

Equality Impact and Needs Assessment (INA) Form

Name of the policy, function or project: **The Harm Prioritisation System**

Service: **Planning Enforcement Team, Environmental Protection Group**

Complete this form for any existing/proposed policy/function/project regardless of whether it is aimed at external customers or internal staff. Please also be aware that equality policy applies to staffing/human resources issues as much as to external service delivery issues. Please note that existing policies/functions will be assessed as per an agreed annual programme.

Answer every question – even if it is negative.

If you conclude that there is a negative impact you will need to review the policy/function/project to improve the equalities performance and minimise or remove the impact. This should be done using the 'Improvement Actions Planned' table. Where appropriate such actions should be included in your Service Plan for the following year.

If the Corporate Equalities Group (CEG) feels this impact assessment needs further consideration, **you will be asked to review your conclusions.**

As a result of this exercise, you will have checked that your policy/function/project does not have negative/adverse impacts in terms of Gender, Race, Disability, Age, Sexual Orientation, Religion or Belief (equality target groups) or if it does you will have identified relevant actions needed to minimise or remove such impact and their likely resource implications.

This is not simply a paper exercise – it is designed to make sure that your policy/function/project and service (development) is delivered fairly and effectively to all sections of our local community, and our employees!

Please note that the Council is required to publish the results of these assessments, and update; therefore **your completed form may be a public document.**

Once completed, please pass this form, together with documentation describing both the policy/function/project it concerns and any evidence relating to assessed impacts, to Alison Moran, Performance Manager in the first instance. *(If this is a new policy/service/procedure/function/project this form will also need to be attached to your Cabinet or Council report)*

To complete the form using 'check marks' in the boxes, position the cursor over the box you require, left double click, then select 'checked' in the 'check box form field options' box that appears on screen.

a. Preparation

The work on this section should be done in advance and be used as part of your INA. Please attach examples of available evidence, including monitoring information, research and consultation reports.

1a. Do you have relevant data available on the number of people within the scope of your policy/function/project? E.g. whole population of the district/ward or employee data.

2. If you have answered 'yes' to the above questions your monitoring data should be compared to the current available census data to see whether a proportionate number of people are taking up your service. Please make any comments regarding service take up if relevant:

If you have answered 'no' please explain reasons for lack of relevant data:

The Planning Enforcement Team currently works on a re-active complaint system ('The HARM' system). It deals with all members of the community who have concerns over unauthorised development. Everybody is dealt with equitably The 'Harm' system promotes transparency, fairness and consistency with investigations and follows the advice contained within Government guidance on legal procedures, planning policy and best practice.

Due to the short period of time that has elapsed since the introduction of the 'Harm' system the capture of feedback data at this time would not provide any accurate or meaningful information. However a customer survey has been commissioned and will be sent out to all users of the planning enforcement service.

3. Are you aware of any relevant equality or diversity related consultation, research, or good practice guidance in relation to this area? If so then please list and attach here:
