

DOGS LOOKING FOR HOMES

Meg is around 2 years old and is struggling to cope with kennel life. We are looking for a home where she can be kept active, both mentally and physically. She loves to play with toys and will keep you busy with a game of ball! If you think you may be able to offer this lovely girl a home please contact us as she desperately needs to get away from the stress of the kennels.

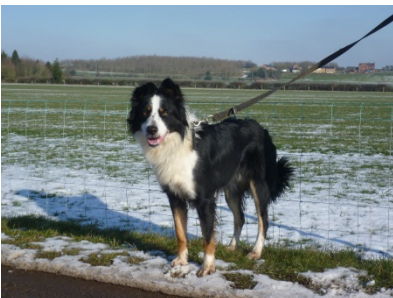

Bruno is a middle aged boy of around 6-7 years old who has spent the last year in rescue kennels. He is a fabulous boy who has never even had a chance in a new home as he has been constantly overlooked for younger, prettier dogs. He is a lovely steady boy who could possibly live with a compatible female dog. He loves nothing more than destroying balls as you can see!!

Apple is 2-3 years old and is full of energy. She can be very excitable and would benefit from some basic training. This girl is extremely loving and literally hugs you whenever she can! She gets on very well with children and loves to play. A home with owners who have owned lurchers before would be ideal.

Holly is only 15 months old and already finds herself looking for a new home. She can be a little nervous at first and doesn't like the noise of the kennels but soon makes friends and when she does boy do you know it!! You will not be allowed to leave without a good bout of toy throwing! We are looking for a home with an owner who can be gentle with her and ideally have some experience with terriers.

Tango is a stunning lad who is only around 18 months old. He is very "collie like" in his behaviour and doesn't appear to have had much handling or training. We feel that with the right owner he will make an outstanding working or agility dog and are appealing for anyone who can offer a loving home, together with collie expertise to contact us.

**IF YOU FEEL YOU MAY BE ABLE TO OFFER A HOME PLEASE CALL
