Blaby District Council

Village Services Fact-File

This document aims to provide an up to date information base for anyone interested in the key local facilities available in the District of Blaby such as Post Offices, Newsagents and local bus services etc. The information is presented in the form of several tables. Each table is specific to a particular settlement in the District and the key facilities available in each settlement are listed.

A separate section on local bus information is also included in the Fact-File. This again breaks the information down by settlement and provides a list of all bus services available in each area along with the frequency and route of that particular service.

Due to the constantly changing nature of the information contained in the Fact-File, it is recognised that the document will need to be updated in the future to ensure that it provides an accurate representation of the services available in the District of Blaby. This updating will be carried out intermittently.

The information shown in this Fact-File will form part of the evidence base for the preparation of the Blaby District Local Development Framework.
